This report only counts training which has been completed and recorded in LearnerWeb. Actual campus-wide training stats may be higher due to the fact that some campus organizations retain training histories manually or in systems independent of LearnerWeb.

"RMS Total" is a count of all courses completed by Sac State employees, which addressed a regulatory requirement related to risk management, EPA, or OSHA compliance.

"Campus Total" is simply a count of all courses completed by employees without regard to the purpose of the training.
